## WIRELESS MESSAGES.

Wilson Pushing Along Experiments  
Of the Weather Bureau.

### THREE STATIONS TO BE OPERATED.

Wire Cylinders so Far Found to Be  
Most Efficient For Long Distance  
Transmission — Will Cover  
Large Magnetic Field.

Washington, March 12.—Secretary Wilson of the agricultural department is pushing the wireless telegraphy experiments along the Virginia and North Carolina coasts. The work is being done by Secretary Wilson direction under the immediate supervision of Prof. Willis L. Moore, chief of the weather bureau.

Prof. Moore makes this statement regarding experiments so far conducted: "The most efficient method of long distance transmission has been found to be from wire cylinders. The new coast stations are being equipped with cylinders of 16 wires each and 140 feet in length. From these cylinders it is expected to cover a magnetic field of not less than 500 miles. The stations now in operation are at Hatteras and at Roanoke Island in the Pamlico sound, North Carolina. Workmen are beginning the construction of a station at Cape Henry which will be the third station. When this is finished the two remote stations will be 127 miles apart. The three points now are connected by a government telegraph line, but this line will be abandoned on the completion of the Cape Henry station. This incidentally will save the expense of maintenance of a half dozen repair stations."

### Further Proposals Expected.

Washington, March 12.—Foreign officials are nettled at the statements cabled here that no opening is left for further action in the case of Great Britain's rejection of the senate's amendments to the Hay-Pauncefote treaty. It is pointed out that Great Britain's reply invites further proposals from the United States. Moreover, the foreign office understands that something of this sort is already contemplated in Washington. It is officially stated there is no desire on the part of British officials that the matter should be dropped. They confidently expect further negotiations and hope for a satisfactory conclusion, though this does not lessen their insistence of the integrity of the Clayton-Bulwer treaty until both signatories consent to its abrogation.

### Nothing Doing on Canal Treaty.

Washington, March 12.—No step has been taken by either side since the delivery of the British reply to the senate amendments to the Hay-Pauncefote treaty. It is understood none will be taken in the immediate future. The treaty expired March 5 and it is stated positively that before this government decides as to whether or not it shall enter upon negotiations for a new treaty with Great Britain an effort will be made to learn the views of senators and party leaders in congress. There will be no treaty submitted to the senate except on a pretty clear understanding that it is strong enough to secure vote of two-thirds of the body.

### British Reciprocity Treaties.

Washington, March 12.—It is probable that the time for ratifying the treaties with Great Britain respecting reciprocity with the British Indian colonies, will be extended one year or 18 months, in order that the treaties may be considered by the senate next December. It was at first thought the West Indian treaties lapsed at the close of congress, but it appears that those on British Guiana, Jamaica, Turks and Caicos Islands and Bermuda continue in existence until March, while the Barbadoes treaty has until June 18 to be ratified.

### Will Not Go Together.

Washington, March 12.—The Ohio delegation in congress, which is to attend the launching of the battleship Ohio at San Francisco, will not travel in the same train with the presidential party. It will go on a separate train, probably with Governor Nash and other prominent Ohioans. The president's party will be confined to the members of the cabinet and their wives, Mr. Scott of the Union Iron works, Secretary Cortelyou, Dr. Rixey, several of the White House staff and perhaps one or two invited guests.

### St. Louis Fair Commission.

Washington, March 12.—The president has practically completed the list of St. Louis fair commissioners and the announcement of the appointments may be made at any time. It already is known that the list includes ex-Senators Carter of Montana, Lindsay of Kentucky, McBride of Oregon and Thurston of Nebraska; and ex-Representatives Rodenburg of Illinois and Allen of Mississippi.

## CHAPTER OF CATASTROPHES.

Two Men Killed and Brewery Razed  
By Cooker Exploding.

McKeesport, Pa., March 12.—Two men were killed and the building wrecked by the explosion of "cooker" at the McKeesport brewery. The dead are William Cincle, night watchman, and Matthew Marr, brewer. The cause of the explosion is not known. The building was a large brick structure and was almost completely razed. The roof of the residence of William Spencer, adjoining, was blown off but the occupants were not injured. The loss on property is estimated at not less than \$100,000.

James Freeman, brakeman, who was standing on a freight car watching the rescuers at work, fell from the car and was beheaded by a passing engine.

### Cause of Chicago Explosion.

Chicago, March 12.—The coroner's inquest on the remains of the nine employees of the Doremus laundry killed in the boiler explosion has been set for March 19. Expert engineers sent out by insurance companies are almost unanimous in the opinion that the explosion was the direct result of lack of sufficient water in the boiler. A. M. Doremus, manager of the destroyed laundry, is in nominal custody of the police and probably will be held after the coroner's inquiry.

### Stockmen and Stock Killed.

Chicago, March 12.—A rear-end collision between a time freight and stock train on the Chicago and Northwestern road at Arlington Heights killed two stockmen, and injured eight. In the caboose were 14 stockmen traveling with stock. The engineer and fireman of the freight jumped and escaped injury. The debris caught fire and three cars and the caboose were burned. Many animals were killed.

### Indiana Miners Meet.

Terre Haute, Ind., March 12.—The annual convention of District No. 11, United Mine Workers of America, began the first of a three days' session here with many delegates in attendance. Machine differential, pay of drivers, the status of engineers, price of powder as well as of the price of mining are principal questions to be considered. Officers are to be elected. President Van Horn will probably be re-elected without opposition. At a banquet Thursday night, Eugene V. Debs is to be one of the speakers.

### Mining Convention.

Hazleton, Pa., March 12.—President Mitchell called the convention of the United Mine Workers to order, with 500 delegates, representing about 150,000 mine workers, in attendance. President Mitchell made a brief address and committees on credentials and organization were appointed after which a recess was taken to allow the committee to report. When President Mitchell was asked to make a statement he said: "The conditions are too serious for me to add to them by words."

### Declined By Fuller.

Des Moines, Ia., March 12.—Former Congressman W. E. Fuller of West Union, this state, who was recently appointed by the president to the position of United States assistant attorney general with a view of attending to the legal business of the Spanish claims commission telegraphed to the president Tuesday his declination. Mr. Fuller's father recently died and the settlement of the estate falls upon him, requiring all his time.

### Stead's Son Weds.

Indianapolis, March 12.—At the home of Dr. and Mrs. J. R. Hussey in Woodruff Place, at noon, Alfred Stead of London, son of William T. Stead, and Miss Mary Elaine Hussey were married. The Rev. M. L. Haines, pastor of the First Presbyterian church officiated. The wedding was private, only a few guests being present. The couple will take a journey around the world. The bride is a niece of Dr. and Mrs. Hussey.

### Brewing Company Bankrupt.

Milwaukee, March 12.—The Milwaukee Brewing company went into bankruptcy on an involuntary petition signed by three creditors of the company and an admission of bankruptcy signed by William Gutknecht, its president. The books of the company March 1 showed debts of \$105,000. The assets are said to equal that amount and the company, it is claimed, will pay its debts in full.

### Samples Not Satisfactory.

Washington, March 12.—The postoffice department rejected all bids for furnishing street letter boxes for the postal service and new advertisements will be issued for steel boxes only. The sample boxes submitted were not satisfactory.

### Against 3-Cent Fare Ordinance.

Cleveland, March 12.—Judge Ricks of the United States district court has declared unconstitutional the 3-cent fare street railway ordinance passed by the city council two years ago. The case will be carried to higher courts.

## AT THE RIVER'S BRINK

Spirit of Harrison Is Waiting For the  
Ferryman of Jordan.

### MAY NOT WAIT THERE MANY HOURS

Relapse Set In Tuesday Morning Which  
May Soon Terminate the Life of  
The Former President—Relatives  
Have Been Summoned.

Indianapolis, March 12.—Ex-President Harrison's condition is critical.

At 10:10 a. m. Dr. Henry Jameson said: "Mr. Harrison's condition is worse and his symptoms are more alarming. His mind is not so clear and there is nothing in his condition that offers any encouragement. The condition of the left lung has grown worse instead of better. Unless some remarkable and unexpected change

EX-PRESIDENT HARRISON.

for the better takes place we can entertain little hope of his surviving many hours." Later bulletins give no encouragement.

Relatives living elsewhere have been notified to come as quickly as possible. The physicians say that if the disease were in a younger man, they would have some hope, but in one of the age of Mr. Harrison they do not look for any change for the better.

Telegrams from all over the United States poured into the newspaper offices and to the Harrison home, showing the widespread interest in the condition of the former president.

### Can't Visit Her Father.

Saratoga, N. Y., March 12.—Mrs. Mary McKee McKee, who resides here and who is the daughter of General Benjamin Harrison would leave for Indianapolis were it not for the fact that her two children Harrison and Mary McKee, aged 15 and 13, are confined to bed with severe attacks of measles. Both Mrs. McKee and her husband, James R. McKee, are constantly at the bedside of the children.

### Russell Called Home.

Washington, March 12.—Lieutenant Colonel Russell Harrison, son of former President Harrison, was at the war department. He received a message calling him to the bedside of his father and he left for Indianapolis.

### Brother of the General.

Kansas City, March 12.—J. Scott Harrison, brother of General Harrison, and his wife will go to Indianapolis, although no word summoning them has been received.

### Broach Acquitted.

Canton, Miss., March 12.—The jury at Carthage, Miss., acquitted Russell Broach, charged with the murder of the Gamble family. The eight negroes, indicted for the same crime, have not yet been brought to trial. A verdict in favor of Broach was a surprise, as it was generally believed he would be found guilty. Carthage is full of men from the surrounding country who, it is reported, have been restrained from taking the law into their own hands only by the expectation that the persons accused would be convicted and legally executed.

### Griffith's Shortage.

Columbus, O., March 12.—The special examiners who have been at work on the books of the Cincinnati board of education, have reported to the state school commissioner that the shortage of George R. Griffith, clerk of the board from April, 1887, until his death Oct. 1, 1900, amounts to \$123,711 death Oct. 1, 1900, is \$123,711.25.

### Sampson's Explanation.

Newport, R. I., March 12.—Admiral Sampson in reply to Secretary Long's letter of inquiry, describes how his indorsement on Gunner Morgan's credentials were written and transcribed. He says he is in no way responsible for its publication and all who handled the correspondence in any way deny that they divulged it.

Pottsville, Pa., March 12.—John W. Ryon, 79, a leading member of the Schuylkill county bar, is dead. He represented this, the Ninth, district in congress in 1878.

## DESPERATE SWAIN.

Sent Infernal Machine to Girl Who  
Thwarted His Love.

Philadelphia, March 12.—Frederick Miller, a young man, is under arrest on the charge of sending an infernal machine to Miss Florence Banker, a young woman who Miller thought stood between him and the object of his affections, Miss Elsie West. The girls live together. A package addressed in Miller's handwriting was received by Miss Banker, but for some reason, being suspicious, she turned it over to the police. It was found to be filled with gunpowder which was to be ignited by the turning of a crank. The instructions on the package were to turn a crank attached and "the music box would play."

### Ohio Incorporations.

Columbus, O., March 12.—Columbus and Hocking Coal and Iron company, Columbus, increase from \$5,500,000 to \$7,000,000; Buckeye Screen company, Toledo, \$50,000; Delaware Manufacturing company, Delaware, \$10,000; Bettcher Manufacturing company, Cleveland, \$10,000; Gordon-Roever company, Cincinnati, \$300,000; Gas and Gasoline Mantle company, Cincinnati, \$10,000.

### Same As Double Track.

Cleveland, March 12.—As the result of a conference between President Ingalls of the Big Four and M. M. Mosier, general superintendent of the Erie railroad, an agreement has been reached whereby both these roads will use the single tracks of the Erie and Big Four which parallel each other between Marion and Galion. The arrangement will go into effect April 15.

### Barges and Bridge in Danger.

Toledo, March 12.—Ice in the Maumee river broke up and started for the lake, carrying with it two big steam barges, the Gilchrist and Marquette. A gorge formed at the city side of the Wheeling and Lake Erie bridge and the two vessels are jammed in the ice not far from the bridge. Both barges and bridge will be in great danger when the jam breaks up.

### Filling Mines With Japs.

Denver, March 12.—It is announced that the Colorado Fuel and Iron company is importing Japanese miners to fill the places of strikers in their New Mexico mines. Forty have arrived at Gallup. It is said, and 210 more are expected within a few days. It is stated that the company will also employ Japanese to work in Colorado. They are brought from the Pacific coast.

### Sold to a Syndicate.

Zanesville, O., March 12.—The Buckeye Press Brick company's large plant at Roseville has been transferred to the Ohio Press Brick company, a branch of the Hydraulic Press Brick company of St. Louis. The syndicate is one of the largest in the country and operates 29 plants. The combination has factories in Toledo, Cleveland and Findlay, O.

### Will Tackle Glass Trust.

Pittsburg, March 12.—A new independent glass factory with four 15-pot furnaces will be built at Rochester, Pa., within a short time. The plant at the outset will employ from 700 to 750 hands. Tumblers and tableware are to be manufactured. Work on the plant is to be started April 1.

### Pennay Added \$100,000,000.

Philadelphia, March 12.—At the annual meeting of the stockholders of the Pennsylvania Railroad company in this city a resolution was adopted authorizing an increase of \$100,000,000 in the capital stock of the company, making the total issue \$251,000,000.

### Boers Exiled to India.

Calcutta, March 12.—The government is preparing for the possible arrival of 5,000 Boer prisoners, who will be located in batches of 1,000.

## WANT SIX MORE HEADS

Then There Are Ninety Who May Be  
Punished Ad Libitum.

### MINISTERS TO HOLD DAILY MEETINGS.

Indemnity Claims Which Are Palpably  
Unjust Will Not Be Allowed.  
Value of Confiscated Property to  
Be Credited on Indemnities.

Peking, March 12.—At a general meeting of the foreign ministers, the representatives of the committees were heard. Regarding more punishment of Chinese connected with the Boxers, there is strenuous opposition against the demand of many more heads, but a list containing the names of 96 minor officials will shortly be presented Prince Ching and Li Hung Chang, urging that they be tried for complicity in the outrages and punished, when found guilty, in such manner as the Chinese themselves see fit, except six men who, the ministers think, should be executed.

Mr. Rockhill's provisions, providing for daily meetings of the ministers will be followed so far as practicable. When any minister is unable to attend meetings, a meeting will not take place. Otherwise the meetings will occur daily.

The report of the committee on general principles on which indemnity claims should be considered was adopted. Those claims which are palpably unjust will be disallowed. The report of the committee on the legal quarter defense will be considered at once. Though the committee has declined to notify the Chinese owners of property confiscated the register of claims of the ministers will probably see that the amount involved, if just, is added to the total of the general indemnity. The ministers will soon meet Prince Ching and Li Hung Chang to consider questions regarding public buildings and grounds.

### Object to Russia's Grab.

Shanghai, March 12.—American and British China associations have cabled their respective institutions at Washington and London urging that protests be made against the Russian-Chinese Manchurian treaty and it is understood here that the Germans have taken similar action. It is said Chang-Chi-Tung, viceroy of Hankow, will open treaty ports on the Yang Tse Kiang, below Woo Chang.

### Philippine Health Report.

Washington, March 12.—Surgeon General Sternberg has received a report from Colonel Greenleaf, chief surgeon of the division of the Philippines, giving some interesting statistics in regard to the health of the army in that quarter. The report is dated Manila, Jan. 15. At that time the strength of the command was 67,415, and the percentage of sick was 7.49. The consolidated weekly report of hospitals at Manila and the military hospitals in the division shows 2,400, of which 390 were cases of malarial fever, 326 dysentery, 253 wounds and injuries, etc. There were 33 deaths among the troops during the month ended Jan. 15. Colonel Greenleaf says he regards the health of the command as good.

### Proctor to Visit Cuba.

New York, March 12.—Senator Proctor of Vermont has, it is announced, gone to Cuba and will be absent about two weeks. ### Hunting Boers in the Hills.

#### PITHY POINTS.

(By Robert Taylor.)

Mr. Cleveland can now take his duck hunt without any heraldry.  
Mr. Cleveland doesn't cut as much figure on a duck hunt as he did when he was President.  
Mrs. Nation comes much nearer sticking to her text than ever Grover Cleveland did to his.  
We guess the present duck hunt of Mr. Cleveland will hardly be charged up to the government.  
Mr. Cleveland may succeed in slipping up on North Carolina ducks, but he will hardly fool Democrats any more.

It can't be claimed that Mrs. Nation hasn't blazed the way sufficiently for any temperance movement that may follow.

Mr. Cleveland may be a success as a duck hunter, but he's the poorest excuse as a Democrat that has come under our observation.  
Mr. Cleveland likely will have better luck at duck hunting than when his trips were announced with so much heraldry, as this gave the ducks timely warning.
